HELY&WEBER®

BRACING INNOVATIONS

The Squeeze

Ulnar Compression Wrap

FOCAL COMPRESSION. NO NEED TO CINCH THE WRIST.

For best result, Pressure Dot is applied over the ulnar styloid with the hand fully supinated

2801 THE SQUEEZE

The Squeeze delivers adjustable point compression for ulnar-sided wrist support. Position the Pressure Dot where support is needed. Its winged design concentrates pressure at that point without relying on circumferential tension.

FEATURES & BENEFITS

- *NON-SLIP WRIST CUFF:* Provides a stable base for the Pressure Dot and helps keep the wrap in place without cinching the wrist.
- *REPOSITIONABLE, WINGED PRESSURE DOT:* Attaches wherever needed on the cuff to deliver targeted compression without relying on circumferential tension.
- *UNIVERSAL, AMBIDEXTROUS FIT:* One size fits either the right or left wrist, simplifying stocking and ordering.

INDICATIONS

- Triangular fibrocartilage complex (TFCC) injury
- Distal radioulnar joint (DRUJ) dysfunction
- Ulnar-sided wrist pain
